

POWER GENERATION

Kraft Power designs specific solutions to match any application's needs. With over 55 years of experience in the generator business, we provide expert advice and planning, cutting-edge products, and industry-leading service.

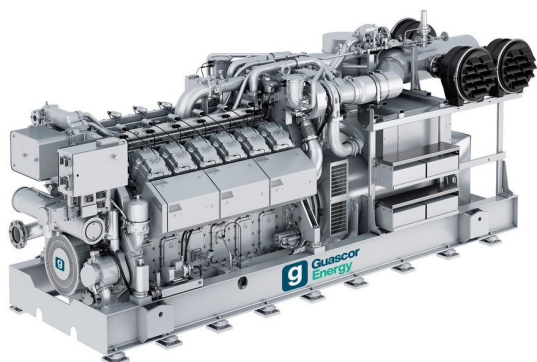

KOHLER POWER

- Diesel generators from 15 kWe to 4000 kWe
- Gas generators from 25 kWe to 500 kWe
- Electronic controls
- Automatic transfer switches
- Paralleling switchgear
- Configurable systems

KRAFT ENERGY SYSTEMS

- Combined Heat and Power (CHP) cogeneration systems from 55 kWe to 674 kWe
- Natural Gas Rich burn, lean burn or biogas fueled
- Containerized or open skid mounted
- Pre-engineered to reduce installation time and costs
- Intuitive control system with remote monitoring standard

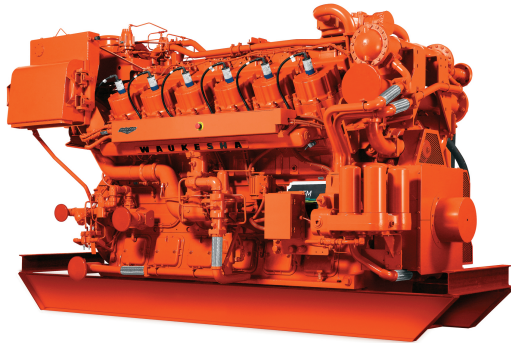

GUASCOR ENERGY

- Generator Sets & engines from 336 kWe - 2,000 kWe
- Containerized CHP, Straight Power Generation or Open Unit
- Dynamic fuel blending with various fuels including H₂
- SM Series for full power rating on Propane Gas

AIREM Gas Turbine Generators

- Packaged 1.8MW gas turbine power generation
- Liquid or gaseous fuels
- Extreme fuel tolerance for environmental utilization of low-quality gases

Waukesha Gas Engines

- Engines and power systems from 230 kWe to 2300 kWe
- High fuel tolerance
- Simple emissions compliance solutions
- Extreme durability in challenging environments

Controls Upgrades and Modifications

- ComAp Platinum Channel Partner
- Extend equipment life while improving its capabilities
- Controls available for virtually every generator brand
- Technical teams with decades of experience resolving customers' operational, compliance, and performance challenges

Services & Spare Parts

- Planned service programs
- 24/7/365 emergency services
- Load bank testing
- Emissions control solutions
- Engine/generator control upgrades
- Around-the-clock remote monitoring
- Rental generators and load banks
- Extensive inventory of OEM parts
