

Nordhavn 41 with Nanni N4.115

Engine Specification Sheet

The Nordhavn 41, specially designed for long crossings and ocean cruising, will now continue its way stronger and more reliable. This Nordhavn 41 is now equipped with two Nanni N4.115 engines, developed from Kubota bases and renowned for their reliability and robustness, offering safety, comfort, and autonomy, essential features for long-distance cruising.

With 115 horsepower each, the N4.115 offers an excellent compromise between performance, range, and low fuel consumption. Their high torque at low rpm guarantees smooth, silent propulsion, even in demanding sea conditions

General Specifications

Boat Dimensions

Length overall (LOA).....	41 ft 4 in (12.6 m)
Beam.....	13 ft 11 in (4.24 m)
Draft.....	4 ft 7 in (1.42 m)
Cruising Speed.....	7.5 knots
WOT.....	10 knots

Propulsion System

Engine: Nanni N4.115

Manufacturer: Nanni Industries

Engine Base: Kubota

Type: 4-stroke, 4-cylinder in-line diesel

Horsepower: 115 HP (84.6 kW) at 2,600 RPM

Displacement: 3,769 liters

Air Intake: Turbocharged with intercooler

Cooling System: Closed cooling with heat exchanger

Compression Ratio: 19.1:1

Mounting Angle: 7 front up, 7 front down

Fuel System: Direct injection, high-pressure Common Rail, electronically controlled
